<p>Clean Air Council</p> <p><i>All levels</i></p> <p><u>Date:</u> Summer 2009</p> <p><u>Location:</u> Philadelphia, PA</p>	<p>Summer Internships (UnPaid)</p> <p>Clean Air Council is a member- supported, non-profit environmental organization dedicated to protecting everyone's right to breathe clean air. The Council works through public education, community advocacy, and government oversight to ensure enforcement of environmental laws. Interns perform a wide range of tasks including: research; preparation of written materials such as reports, newsletters, and fact sheets; community, educational, and media outreach; and administrative work. Interns are typically hired to work within a specific program area such as clean air, clean energy, Sustainable Transportation, Children's Environmental Health, Waste Reduction & Recycling and tobacco smoke pollution. A limited number of paid internships may also be available, depending upon available funding or a particular candidate's experience.</p> <p>http://www.cleanair.org/InsideCAC/interns.html</p>	Until Filled
<p>Con Edison</p> <p><i>Juniors, sophomores</i></p> <p><u>Date:</u> Summer 2009</p> <p><u>Location:</u> NY, NY</p>	<p>Summer internship</p> <p>Edison Company of New York (Con Edison) is a regulated utility, provides electric service in New York City and most of Westchester County. We provide natural gas service in Manhattan, the Bronx, and parts of Queens and Westchester. Con Edison's Summer Intern Program provides college students with work experiences that help them connect textbook knowledge with real-world settings and gain an understanding of the way we work at Con Edison. Applicants must be full-time students in a four-year college program (with at least upper sophomore status), have a cumulative grade point average of 3.0 or greater, and be involved in the study of engineering, environmental science, computer science and business-related disciplines, such as accounting or finance.</p> <p>http://apps.coned.com/careers/careers/internship.asp</p>	2/13/2009
<p>Con Edison</p> <p><i>Seniors</i></p> <p><u>Start Date:</u> June 2009</p> <p><u>Location:</u> NY, NY</p>	<p>Growth Opportunities for Leadership Development (GOLD) program(Entry-Level)</p> <p>Recent college graduates and college seniors are invited to join the exciting, growing utility industry by applying to Con Edison's Growth Opportunities for Leadership Development (GOLD) program and gain insight on the way we work at Con Edison. We're looking for recent and upcoming graduates with degrees in Business (Accounting, Finance, Economics, or Business Administration/Management), Computer Science (Information Technology or Information Systems) or engineering (electrical, civil, chemical, environmental, or mechanical). Through a series of practical, rotational job assignments, mentoring, and senior management guidance, GOLD program participants tackle challenging supervisory and project-based jobs that provide highly valued work experience and gain insights on the way we work at Con Edison. Upon successful completion of the program, participants will be poised to advance within Con Edison's managerial ranks.</p> <p>http://apps.coned.com/careers/careers/college.asp</p>	Rolling
<p>Environmental and Energy Study Institute</p> <p><i>Juniors, Seniors</i></p> <p><u>Date:</u> Summer 2009</p> <p><u>Location:</u> Washington DC</p>	<p>Summer Internships (UnPaid)</p> <p>The Environmental and Energy Study Institute (EESI) is a non-profit organization established in 1984 by a bipartisan, bicameral group of members of Congress to provide timely information and develop innovative policy solutions that set us on a cleaner, more secure and sustainable energy path. EESI relies upon interns to provide substantive help to advance our environmental and energy policy agenda. In return, interns gain significant insight into the workings of Congress and the federal legislative process, knowledge of significant environmental and energy issues, and an understanding of a non-profit organization. Through EESI coalition building with other organizations, interns will witness how environmental and energy issues develop within the public policy arena. Internships offered include , Transportation and Energy Policy Internship , Energy and Climate Policy Internship and Sustainable Biomass and Energy Policy Internship. We do offer transportation benefits.</p> <p>http://www.eesi.org/jobs</p>	Until Filled
<p>New York State Energy Research and Development Authority</p> <p><i>Juniors, Seniors</i></p> <p><u>Date:</u> Summer 2009</p> <p><u>Location:</u> Albany, NY</p>	<p>Summer Internships (Paid)</p> <p>The New York State Energy Research and Development Authority (NYSERDA) sponsors and funds the research, development, and commercialization of new energy and environmental technologies and products. Innovations like alternative-fueled vehicles, green building projects, and solar/wind industries help create jobs in New York, preserve energy and protect the environment. Interns' typical responsibilities may include project management coordination, research and assess various energy, environmental, economic, or policy issues, conducting market and product research on specific technologies or manage various components of NYSERDAs database. The work schedule may be up to 37.5 hours per week during the summer months</p> <p>http://www.nyserda.org/about/about_jobs.asp</p>	Until Filled

Environmental Consulting

Environmental Sciences/Research

<p>Cary Institute of Ecosystem Studies</p> <p>Sophomores, Juniors</p> <p><u>Date:</u> 5/ 26 -8/14, 2009</p> <p><u>Location:</u> Millbrook, NY</p>	<p>The Research Experiences for Undergraduates Program(Paid)</p> <p>Now entering its 22nd year, the Research Experiences for Undergraduates (REU) program provides 10 students an opportunity to conduct quality research in ecology at a well-established research institute. Students receive a stipend of \$5,100 for their participation in the program, which runs for 12-weeks from the end of May to late August, we provide housing for students for the entire summer plus a food allowance of \$600. Students of diverse backgrounds come from all parts the country to participate in the program. REU students stay in a small dormitory, Bacon Flats, located on our campus, just next door to the Plant Science Building and the Likens Laboratory where students conduct much of their work. Through a Case Study of a regional environmental issue, a career forum, and a day spent teaching younger students from a nearby city (sharing science), students explore the social, political, intellectual and personal dimensions of being an ecologist http://www.ecostudies.org/reu.html</p>	<p>2/1/2009</p>
<p>Dolphin Research Center</p> <p>All level</p> <p><u>Date:</u> Summer 2009</p> <p><u>Location:</u> Grassy Key, FL</p>	<p>2009 Summer Internships (Unpaid)</p> <p>Dolphin Research Center is a not-for-profit organization with goals to promote peaceful coexistence, cooperation and communication between marine mammals, humans and the environment we share through research and education and to operate for the advancement of research and education. Internships involve concentration in specific departments, normally last 12 to 18 weeks, and are held throughout the year. Applicants do not need to be enrolled in college to be considered for an internship. We currently offer internships in the following areas: Animal Care and Training, Dolphin Child Special Needs, Education, Research, and Visual Communications. For additional information on the Intern program and Intern position descriptions please visit http://www.dolphins.org/help_volunteer.php</p>	<p>2/1/2009</p>
<p>Hawk Mountain Sanctuary Association</p> <p>Juniors, Seniors</p> <p><u>Date:</u> May-July,2009</p> <p><u>Location:</u> Orwigsburg, PA</p>	<p>Summer Field Experience Internships in Conservation Science (Paid)</p> <p>Hawk Mountain Sanctuary provides high-quality habitat for forest-interior breeding birds, including two species on the National Fish and Wildlife Foundation's Partners in Flight Watch List: Black-throated Blue Warbler and Worm-eating Warbler. Two-month Summer Field Experience Internships consist of exposure to and training in one or more aspects fieldwork or data management at the Sanctuary. Emphasis is on training, and in particular, experiential learning with a focus on the Sanctuary's ecology. Interns work shoulder-to-shoulder with professional mentors, and each intern completes a collaborative project while at the Sanctuary. Summer field experience internships are designed specifically for upper-level North American college undergraduates who wish to contribute to Hawk Mountain's conservation efforts while learning aspects of conservation science. Housing and a stipend of \$600/month will be provided. http://hawkmountain.org/index.php?pr=Conservation_Science_Internships</p>	<p>Until Filled</p>

<p>Piedmont Environmental Council</p> <p>All Levels</p> <p><u>Date:</u> Summer 2009-</p> <p><u>Location:</u> Warrenton VA</p>	<p>PEC Fellowship Program(Paid)</p> <p>PEC, founded in 1972, is based in Warrenton, Virginia and serves nine counties in Virginia's northern Piedmont area. We safeguard the landscapes, communities and heritage of the Piedmont by involving citizens in related public policy and land conservation. Recognized as one of the most effective environmental groups in the country, PEC brings the strengths of a comprehensive strategy to our work of caring for this extraordinary place. The PEC Fellowship program is much more than an internship! The seven week program is designed to provide college students and recent graduates with comprehensive exposure to PEC's work in the Piedmont region and Virginia. PEC is pleased to provide accepted 2009 Fellows assistance with local housing, classroom facilities, activities and special project expenses, a small living stipend, and an unforgettable experience. http://www.pecva.org/anx/index.cfm/1,220,480,0,html/PEC-Fellowship-Program</p>	<p>Until Filled</p>
<p>Vermont Youth Conservation Corps</p> <p>Seniors</p> <p><u>Date:</u> May-Oct, 2009</p>	<p>2009 Park AmeriCorps Corps (Paid)</p> <p>Serving as an AmeriCorps (AC) Corps Member for the VYCC's Park Program is an opportunity to gain firsthand experience in public lands management and environmental education. AC Corps Members work on a broad array of conservation and environmental education projects which range from tree plantings to teaching children how to hold frogs. The work is both challenging and rewarding with opportunities for growth. Upon completion of the Park Orientation, AC Corps Members will live and work at a Vermont State Park as part of a crew under the guidance of experienced leaders. Each crew will be responsible for operating all aspects of a park which includes: collecting park entrance and camping fees, visitor education, park policy enforcement, and grounds and facilities maintenance. AC Corps Members will be expected to</p>	<p>Rolling</p>

<p><u>Location:</u> Vermont</p>	<p>participate in a residential crew community by engaging in crew activities and sharing the responsibility for meals, chores, and crew education. http://www.vycc.org/positions/americorps_member.html</p>	
<p>Vermont Youth Conservation Corps</p> <p>Seniors</p> <p><u>Date:</u> May-Oct, 2009</p> <p><u>Location:</u> Vermont</p>	<p>School Program Crew Leaders (1 year position) The VYCC School Program is a work-based learning experience for Vermont high school students. As a Crew Leader in this program, you will lead co-lead a crew of 8-10 high school students in a year-long program that inspires students to take responsibility for their own education. You will provide dynamic leadership and supervision to a diverse group of students during the school year. You and your co-leader will serve as role models and will be the day-to-day "face" of this program for school partners, students, parents, and community partners, whether your crew is based at the VYCC Headquarters or at a partnering school. Throughout the year, you will also be responsible for designing authentic assessments and public opportunities for your students to present, share, and reflect on their learning. In this way, you will help your students develop planning, problem solving, facilitation, and presentation skills. \$26,000 annualized salary plus benefits http://www.vycc.org/positions/schoolprogram_leader.html</p>	<p>Until Filled</p>

Markets Research and Development Internship (Unpaid)

The goal of WWF-US is to measurably conserve 19 of the world's most important natural places and significantly change global forces to protect the future of nature by 2020. The Market Research and Development team supports this goal by researching markets and companies that have an impact on markets, priority places and priority species and making recommendations for strategic engagement. This internship opportunity will assist that effort. The work is now focused on developing an understanding of those companies, trends in specific markets, and determining which actors should be prioritized. Interns will research and expand our knowledge of private and public global companies working in each of the strategic sectors, commodities and markets we have identified. They will also develop the supply chain of commodities and products impacting priority places; assist in knowledge development and database creation for strategic engagement of companies, commodities and sectors; and carry out targeted research on selected companies.
