## The Green Edition

Sunday May 9, 2010

Geneva, NY

If you are interested in one of the following positions, please visit our eRecruiting website at <http://hws.experience.com> for more information on how to apply.

## Environmental Advocacy/Policy

<b>American Wind Energy Association</b>  <i>All Years</i>  <u>Location:</u> D.C.	<b><i>Environmental intern -policy, public affairs, development, finance, HR, IT</i></b> AWEA adopted its internship program in order to offer students the opportunity to work and learn in an organization whose mission advocates for and supports the growth and expansion of clean wind energy. As the internship experience encourages a new generation to take an interest in the wind industry, AWEA aims to recruit a diverse selection of candidates for internships. A varied group of interns drawn from different backgrounds and locales will invariably result in an enriched workforce for AWEA's members, benefitting the wind industry as a whole.	<b>5/28/2010</b>
<b>Center for Clean Air Policy</b>  <i>All Years</i>  <u>Location:</u> D.C.	<b><i>Transportation Intern</i></b> The intern will assist program staff with the execution of CCAP's transportation work. This work includes preparation for stakeholder dialogues on transportation and climate policy. In addition to research and writing, the intern may be asked to conduct tasks such as scheduling meetings, formatting documents, assisting in event planning, and other administrative tasks. Knowledge of transportation and climate policy at a national, local and/or regional level; interest in and familiarity with and current legislation is desirable. This internship is available immediately, 10-40 hours per week, for 4-8 months. This is a paid internship with no benefits provided.	<b>5/21/2010</b>

<p><b>Coastal States Organization</b></p> <p><i>Seniors</i></p> <p>Location: D.C.</p>	<p><b><i>Coastal and Ocean Policy Analyst</i></b></p> <p>The Coastal States Organization (CSO) seeks a Policy Analyst to provide substantive review, analysis, advice and advocacy on congressional legislation, executive agency regulations and other initiatives related to the nation's coasts, oceans, and Great Lakes. CSO is a small D.C. non-profit association that represents the interests of the Governors of the thirty-five coastal states and territories.</p>	<p><b>5/12/2010</b></p>
<p><b>Environment America</b></p> <p><i>Seniors</i></p> <p>Location: D.C.</p>	<p><b><i>Environmental Fellowship Program</i></b></p> <p>Environment America's Fellowship Program is designed to give you an opportunity to make an immediate impact even as you gain the training and experience you need to become a leader in environmental movement. Through the Fellowship Program, you will develop basic expertise on critical issues—for example, clean energy—and work to carry out our strategy for winning positive policy change—for example, pushing a new initiative that will bring solar power to thousands of homes and families. One week, you might take part in a coalition meeting, speak at a news conference, lobby lawmakers or their staff, and write an op-ed for publication in the state's top paper. Another week, you might call a list of civic leaders to seek their endorsements of pending legislation, organize a town hall meeting with a lawmaker, and hold a rally in a key legislator's home district.</p>	<p><b>5/28/2010</b></p>
<p><b>Environmental Defense Fund</b></p> <p><i>Seniors</i></p> <p>Location: Austin, Texas; Sacramento/San Francisco, California Washington, DC</p>	<p><b><i>Tom Graff Fellowship Program-Environmental Advocacy</i></b></p> <p>Environmental Defense Fund's Tom Graff Fellowship Program is looking for candidates who are seeking a professional experience in environmental advocacy and will add to the diversity of the staff at EDF. The Tom Graff Fellowship is a full-time, one-year position focused on a project that is integral to one of EDF's key program areas - Oceans, Ecosystems, Climate or Health. The Fellow will have the opportunity to work closely with our staff on a significant project, develop core professional skills, understand our approach to environmental issues, and develop an understanding of environmental advocacy as a career path. Environmental Defense Fund (www.edf.org) was founded in 1967 by a group of scientists concerned about the effects of DDT on humans, wildlife, and the environment.</p>	<p><b>5/30/2010</b></p>
<p><b>Highstead</b></p> <p><i>Sophomores, Juniors, Seniors</i></p> <p>Location: Connecticut</p>	<p><b><i>Regional Conservation Internship</i></b></p> <p>Highstead's Regional Conservation Program is engaged in advancing a deeper understanding of cutting edge land conservation strategies in southern New England. Highstead works with over eighty conservation, planning, academic, philanthropic, and forestry organizations in the Northeast fostering collaborations across political, geographical, and professional boundaries. Many of these groups are members of the Wildlands and Woodlands Partnership, currently coordinated by Highstead's Regional Conservationist.</p>	<p><b>6/15/2010</b></p>
<h2>Environmental Consulting</h2>		
<p><b>Earthwatch Institute</b></p> <p><i>Seniors</i></p> <p>Location: Maynard, MA</p>	<p><b><i>Project Coordinator</i></b></p> <p>The Coordinator will play a key role in the delivery of a range of funded corporate engagement programs. The role will provide support to the Corporate Program Manager and other relevant Earthwatch staff to coordinate effective implementation of these programs (including the HSBC Climate Partnership program). The Coordinator will administer the recruitment, selection and preparation of corporate employees to join teams at locations such as the Regional Climate Centre in Maryland, to undertake research and learning in the field. The role will help to administer 1-2 day local volunteering projects for corporate employees and liaise with local partner organizations.</p>	<p><b>Until Filled</b></p>

<p><b>Moriarty Environmental Solutions</b></p> <p><i>Seniors</i></p> <p><u>Location:</u> Colmar, PA</p>	<p><b><i>Environmental Field Technician</i></b></p> <p>Moriarty Environmental Solutions, Inc., (MES) an environmental consulting firm located in Colmar, Pennsylvania, is seeking an energetic, self-motivated, and team oriented environmental field technician. The ideal candidate should have zero (0) to five (5) years of applicable experience in Pennsylvania or New Jersey. This position involves fieldwork and will require daily travel to and from job sites throughout Pennsylvania or New Jersey. Daily activities may include installation of soil borings, soil and/or groundwater sampling, treatment system operations and maintenance (O &amp; M), property restoration and underground storage tank (UST) transportation. A strong mechanical aptitude is necessary to perform treatment system O &amp; M activities.</p>	<p><b>Rolling</b></p>
<h2>Environmental Education</h2>		
<p><b>Earthwatch Institute</b></p> <p><i>Juniors, Seniors</i></p> <p><u>Location:</u> Maynard, MA</p>	<p><b><i>Research Associate Internship Program</i></b></p> <p>An Earthwatch internship will allow you to gain valuable work experience, build your professional skill sets for future employment, and broaden your career networks. You will be exposed to the different scientific disciplines and the processes of funding applied conservation worldwide. You will have an insider's view as to how the day-to-day business of a non-profit organization differs from the corporate world. Witness firsthand the cultural relations between Earthwatch headquarters and our affiliate offices in the U.K., Australia, and Japan.</p>	<p><b>Until Filled</b></p>
<p><b>National Audubon Society</b></p> <p><i>All Years</i></p> <p><u>Location:</u> Sharon, CT</p>	<p><b><i>Environmental Education Internships</i></b></p> <p>Responsibilities of Interns include assisting with the teaching of environmental education programs to school groups. The primary responsibility of the summer naturalists is to oversee the Sharon Audubon Center Summer Nature Programs for children ages 3-11. Activities range from discovery hikes, pond explorations, live animal programs, nature crafts and games. The summer naturalists design the curriculum for these programs and conduct the programs with the help of Summer Camp assistants. Environmental Education Interns are expected to help with other aspects of a nature center, such as helping with special events, wildlife rehabilitation, general education programs and public programs, and answering requests for information from the public.</p>	<p><b>5/15/2010</b></p>
