

# Would you like to study in the France of North America? Then consider the Québec summer 2012 program!

The winding, cobblestoned streets of old Québec, the grand architecture, the charming outdoor cafés, the French restaurants and the beautiful French language you hear all around you will make you feel like you're in Europe – but it's all right here in North America! This truly is a different culture from our own and from the rest of Canada.

Earn one HWS credit on this 3-week program and experience all that the “Europe of the North” has to offer. While there will be some time spent in a classroom, the main classrooms will be the cities themselves (Ottawa, Montreal and Québec City) as you explore them with two HWS Faculty members, talking to specialists about multiculturalism and immigration, and visiting sites like the Parliament in Ottawa, the National Assembly of Québec, and various history and art museums in all three cities.
