

Configuring VPN for Windows

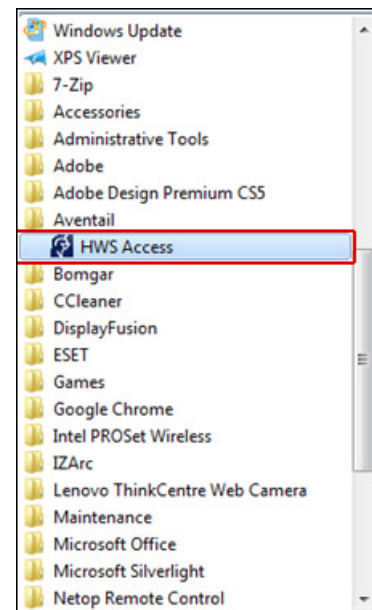

8/30/2011

To configure a PC for VPN:

1. Visit <https://access.hws.edu/> to download and install the VPN client.

2. Open the **Start menu** and open **All Programs**
3. Find the **Aventail** folder and open **HWS Access**

4. When launched, enter your **username and password**
5. Click **Connect**
